PRP
KIT

WHAT'S NEW?

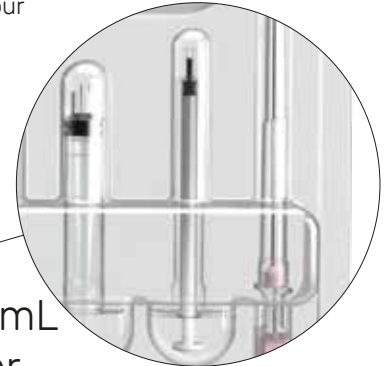

Original Hologram

A myriad of duplicates, but only one T-LAB PRP Kit.

Custom Certificate

Tailored for Nurses and Doctors, you can now easily document your patient.

New 1 mL Injector

Optimal dose, minimum loss

Modernized Design

Compact and elegant

Tube Rack

We go the extra mile to provide more comfort to our users.

Bigger Resuspension Tube

T-Lab Logo on the Blister

We also ensure the originality on our blister.

Renewed Package Design

We have adopted a more minimal design by gently shrinking the logos on the new box. What's more, the logo has been embossed to bring a subtle touch.

“The Original Product”

The PRP tubes in the T-LAB PRP Kit are completely gel-free, in addition it is the first PRP kit with a Re-Suspension mechanism.

There are nowadays plenty of duplicates on the market; “The Original Product” logo stands as a testament to the authenticity of our product.

Certificate

Application: *Skin Rejuvenation*

Applied By: *Dr. Johann P. Smith*

Date: *3/8/2021*

Barcode

The purpose of the barcode label at the back of the blister is to offer an easy method for the user to track the quality of the product and offer the patients the guarantee that they are getting the best treatment.

Tube Rack

Where are we going to put the tubes?
You no longer need to worry about that
as we are now including an easy to
mount rack within the kit itself.
